KYAW THET HTUN

Solution Engineer

info.kyawthethtun@proton.me | +959962379469 | No-19,Thirimyaing 2 street, Hlaing, Yangon

PROFILE SUMMARY

Motivated IT Engineer with 4+ years of experience across Network, System, Cloud, and Solution Engineering. Skilled in designing and supporting secure, scalable IT infrastructures using Cisco, MikroTik, FortiGate, VMware, Linux, and Public and Private Cloud. Strong in troubleshooting, customer-facing solution design, and delivering reliable technical implementations. Currently working as a Solution Engineer focused on providing end-to-end technical solutions for business needs.

EDUCATION

University of Computer Studies (Maubin) *2015-2020*

- Bachelor of Computer Technology (B.C.Tech)

WORK EXPERIENCE

Solution Engineer | Protocol Solution Co., Ltd *MAR 2025 - PRESENT*

- Responsible for understanding client business needs, assessing existing IT infrastructure, and designing end-to-end solutions across networking, cloud, data center, storage, and security.
- Provide architecture design, implementation guidance, technical documentation, and post-deployment support.
- Collaborate with sales teams on proposals, deliver product demos and PoCs, and ensure successful solution adoption.
- Reports directly to the Board of Directors.

System and Cloud Engineer | Myanmar Golden Rock International Co.Ltd *NOV 2023 - MAR 2025*

- Worked as a System & Cloud Engineer supporting banking customers with end-to-end infrastructure operations.
- Hands-on experience in Thales HSM (including 9K → 10K migrations), Oracle Database Appliance (ODA) projects, Data Lake integration, and Entrust Datacard Printer deployments.
- Provided full remote and onsite support, coordinated with the India Inndata team for Data Lake implementation, ensured smooth communication between stakeholders, and delivered training to junior engineers to strengthen team capability.

WORK EXPERIENCE

System Engineer | Capital Hyper Market (CDSG Group) *OCT 2022 - NOV 2023*

- Managed and maintained scalable and secure server infrastructures, including backup and disaster recovery operations.
- Performed system monitoring and performance tuning to ensure reliability. Handled vendor coordination for network equipment procurement and led troubleshooting for network issues with internal teams and external support.
- Provided guidance to junior engineers and delivered end-user support for HQ and branch offices (hardware, software, POS systems, SQL database, network, and firewall).
- Successfully implemented network, server, POS systems, and database setups for three new 24/7 GnG stores, including cashier training.

Network Engineer | Frontiior Co., Ltd (Myanmar Net) *MAY 2021 - OCT 2022*

- Designed, configured, and maintained enterprise network infrastructure, including routers, switches, firewalls, and load balancers. Implemented VLANs, STP, and network segmentation to improve security and performance.
- Performed regular network assessments, resolved incidents to minimize downtime, and collaborated with teams to deliver project-based network solutions.
- Provided daily reporting to management and supported junior engineers through training and knowledge-sharing.

CERTIFICATION

- IT Project Management
- Cisco Certified Specialist - Enterprise Core
- RedHat Sales Engineer Specialist - Platform
- Huawei Cloud Certified Developer Professional (HCCDP) - Cloud Migration
- Huawei Cloud Certified Developer Professional (HCCDP) - Solution Architectures
- Huawei Cloud Certified Developer Associate (HCCDA) - Tech Essentails
- Multicloud Network Associate
- Rubrik Certified System Administrator (RCSA)
- Rubrik Technical Professional (RTP)
- EnGenius Certified Network Specialist
- MikroTik Certified Network Associate
- AWS Cloud Quest : Cloud Practitioner

PROFESSIONAL SKILL

- Linux and Window Server
- Network Design & Troubleshoting
- Firewall and Security
- Virtulization and Containerlization
- Public and Private Cloud
- Backup and Disaster Recovery
- Excellent communication and teamwork skills
- Strong problem-solving and critical-thinking abilities
- Ability to quickly learn the training provided by the company

TECHNICAL PROFICIENCIES

- Network hardware: Cisco, Mikrotik, Ruijie, TP Link.
- Security: Fortigate, HSM (Thales), Check Point (Harmony).
- Monitoring tools: Wireshark, Nagios, Zabbix, Prometheus, Grafana, Opmanager.
- Operating systems: Windows, Linux.
- Virtualization and Containerlization: VMware ESXI, Promox PVE, KVM, Docker, LCX.
- Public and Private Cloud: AWS, Huawei, GCP, MCloud, OpenStack.
- Call Center: 3CX, Vicidial, Asterisk, Cloopen.
